

# Julian

Kids

The cartoonist universe of the Spanish cartoonist Javier Mariscal can be felt in his work as a designer. With the **Julian** chair, which he designed in 2005, Javier Mariscal intervenes in the world of children. He draws his attention to his environment but also succeeds in giving personality to an ordinary object. Published by Magis, the Julian chair is therefore a multifunctional and humorous piece of furniture for children made of rotationally moulded polyethylene. Practical, safe and playful, this chair is also a playmate for the child.

Author·s	Javier Mariscal
Year of creation	2005
Editor	Magis
Typology	Chair
Materials	PE
Colors	Green
Dimensions	54 x 35 x 50 cm
